Dear **MPP**:

On behalf of the Toronto District School Board (TDSB), I am writing you to express our concerns for the reduction in provincial funding for the **Community Use of Schools - Priority Schools Initiative EPO**, as well as the cancellations and reductions of other grants that help our most at-risk communities and youth. Following this letter, you will find a list of our priority schools (Appendix A) and a list of our community partners for the Focus on Youth Summer Program (Appendix B).

Recently, we were notified of a change to the Community Use of Schools - Priority Schools Initiative EPO, which subsidizes school boards to offer free permitting for use of schools in 77 low socioeconomic schools that make up the priority list (Appendix A). Please review the list. **Some of the very communities you represent may be affected.**

The announced change was a reduction of the grant from \$2.6 million to \$1.6 million, a net change of \$1 million. Given the importance of this grant to the city's priority neighbourhoods, the Board will now need to consider whether it will proceed with no cost permits for schools serving these communities without a subsidy from the province.

This funding reduction follows on the heels of grant cancellations to a number of programs specifically geared to serve at-risk communities and young people. The Ministry has announced the cancellations and reductions of grants that include, but are not limited to:

- Focus on Youth after school program, which provides employment and opportunities for youth in the city's priority neighbourhoods;
- Re-engagement 12 & 12+ program that encourages students that have left school to return to complete diploma graduation requirements; and
- Tutors in the Classroom program, which paid university and college students to help tutor students struggling in school.

When the Community Use of Schools grant reduction of \$1 million is added to the list of grant cancellations and reductions that directly impact our students in priority neighbourhoods, the TDSB will experience a \$1.7 million cut in funding for programs, most of which would benefit our poorest and most disadvantaged communities and young people.

In addition, the Ministry has made no decision as to whether funding will continue for the **Summer Focus on Youth Program**. Last year, funding from this program allowed the TDSB to hire and train more than 600 youth to work alongside community partners—from all across the city—to help serve some of our most at-risk and vulnerable young people. I encourage you to view our list of partners (Appendix B) to see the various communities this program has benefited. **Some may very well be in your riding.**

Last year, the program benefited more than 11,000 young people. Typically, by this time of the year, the TDSB would already have started the recruitment process for this program.

This program has documented evidence of helping children living in Toronto's most marginalized communities, and has sought to respond to the high rates of youth violence and poverty, and lack of opportunities for youth.

Surely, young people would get more out of programs that encourage and promote physical fitness, help develop critical life-skills, and provide safe spaces for them to be active and engaged than the cover provided by youth gangs. Surely, our youth are better served playing sports and games after school in safe places, such as our school gyms, than they are in the streets. Surely, if we can re-engage high school students who have dropped out and help them acquire their final credits to earn their diploma, we would be making a significant difference in their future.

The Board's concern is that these grants support programs that are aimed to support our most vulnerable communities and our most vulnerable young people. Each program aims to help level the playing field for these youth.

We have expressed these concerns in person and through a formal letter to the Minister of Education, Hon. Lisa Thompson – and have asked the Ministry to reconsider the cancellation and reduction of these grants, and to continue the funding for the Focus on Youth Summer Program. I have also presented these concerns to the Standing Committee on Finance and Economic Affairs as part of the pre-budget consultations.

So, I ask you, as a Toronto-area MPP, to raise awareness of our concerns and support our ask to the Minister of Education. With your support, we hope that the Ministry will take a second look at the benefits and outcomes of these programs, and decide to reinstate the funding for programs which were cut and continue investing in the Summer Focus on Youth Program as soon as possible.

Yours truly,

Robin Pilkey, CPA, CA, ICD.D  
Chair  
Toronto District School Board
