Course Descriptions

What are the Canadian Language Benchmarks?

The Canadian Language Benchmarks (CLB) are the Canadian standard that measures and describes the level of English language proficiency in adult learners. The four main skills that are assessed using the benchmarks are listening, speaking, reading, and writing. Real-life language tasks are also used to measure these skills. CLB information helps us plan curriculum and evaluate our classes, to best meet our learners' needs.

Learners participate in keeping track of their learning progress in partnership with their teacher and keep a portfolio (Language Companion) of their classroom work.

Literacy Foundation, Phase 1, 2, 3

Literacy classes are for learners who have had little or no experience using English. Starting from the basics, you will learn English that you can use every day; for example, how to read signs and labels, fill in simple forms and talk to the doctor.

English for Everyday - CLB Levels 1-4

Get the English you need for everyday situations in stores, banks and in your neighbourhood. Learn how to understand brief conversations; for example, learn how to greet people, ask for help, or get directions. Learn how to read and write simple messages. Learn actively in a friendly, supportive environment.

English for Everyday - CLB Levels 5-8

Gain confidence as you learn new strategies to improve your listening, speaking, reading and writing skills. Learn how to give presentations, express opinions, agree and disagree and participate in social conversations. Read more complex texts such as feature articles and detailed schedules. Write email messages, letters of complaint and resumes.

Specialized ESL Classes

Finesse your English language skills to prepare for the job market or post-secondary education. TDSB provides a host of specialized language courses designed to help you reach your personal, academic and career goals.

TOEFL, IELTS and Academic Test Preparation Classes

Develop the specific language skills you need to perform well on high stakes language tests that are required for university admission and to re-quality for your profession. Participate in practical activities to enhance your communicative

“

I chose TDSB because my friends said that this school provides good education and it is close to my house. I want to continue my profession in my country, here in Canada. As someone who has been teaching for years, I understand that the teachers teach very well. The teachers are so nice and smiling that we come to school willingly everyday.

fluency, develop your vocabulary and improve your reading and writing skills. Learn how the tests are designed and familiarize yourself with the scoring system.

Intensive/Academic ESL Classes

Intensive/Academic classes are faster-paced and more challenging than the regular classes. Themes may be more abstract. To get the most out of this class you may need to practice outside of the classroom.

Academic Writing

Communicate your opinions in writing based on relevant research and using appropriate functional grammar. Learn how to write a coherent and well-developed essay using a thesis and support for your conclusions. Each class includes grammar and vocabulary. A must for learners who want to succeed at college or university, as well as for professionals who wish to improve their writing skills.

Workplace and Business Courses

Learn how to format emails, inter-office memos and business letters. Write cover letters to accompany a resume. Compose an effective letter of complaint, take minutes of meetings and write incident reports. Write clear texts on concrete topics for the appropriate audience.

ESL and Workplace Computer Classes

Learn how to use computer software to help you improve and practice your English. You will focus on Microsoft Office applications such as MS Word, Excel and Power Point at the intermediate and advanced levels. Learners should have some previous experience using computers.

Conversation Classes

Learn how to speak with more confidence. Feel more comfortable speaking in groups and with your classmates and others. Practice dialogues to build listening and speaking skills that will help you manage your conversations. Learn how to use appropriate language for each situation.

Pronunciation Classes

Improve your pronunciation and develop the confidence to speak up. Tune in to the music of the English language by listening to its distinct sounds. Improve by practicing vowel and consonant sounds, stress and intonation, and learning to link words and phrases together.

ESL Classes with Specific Support

For learners who are experiencing emotional and/or mental health issues, please contact **Hong Fook Mental Health Association** at 416 493-4242 for an appointment.

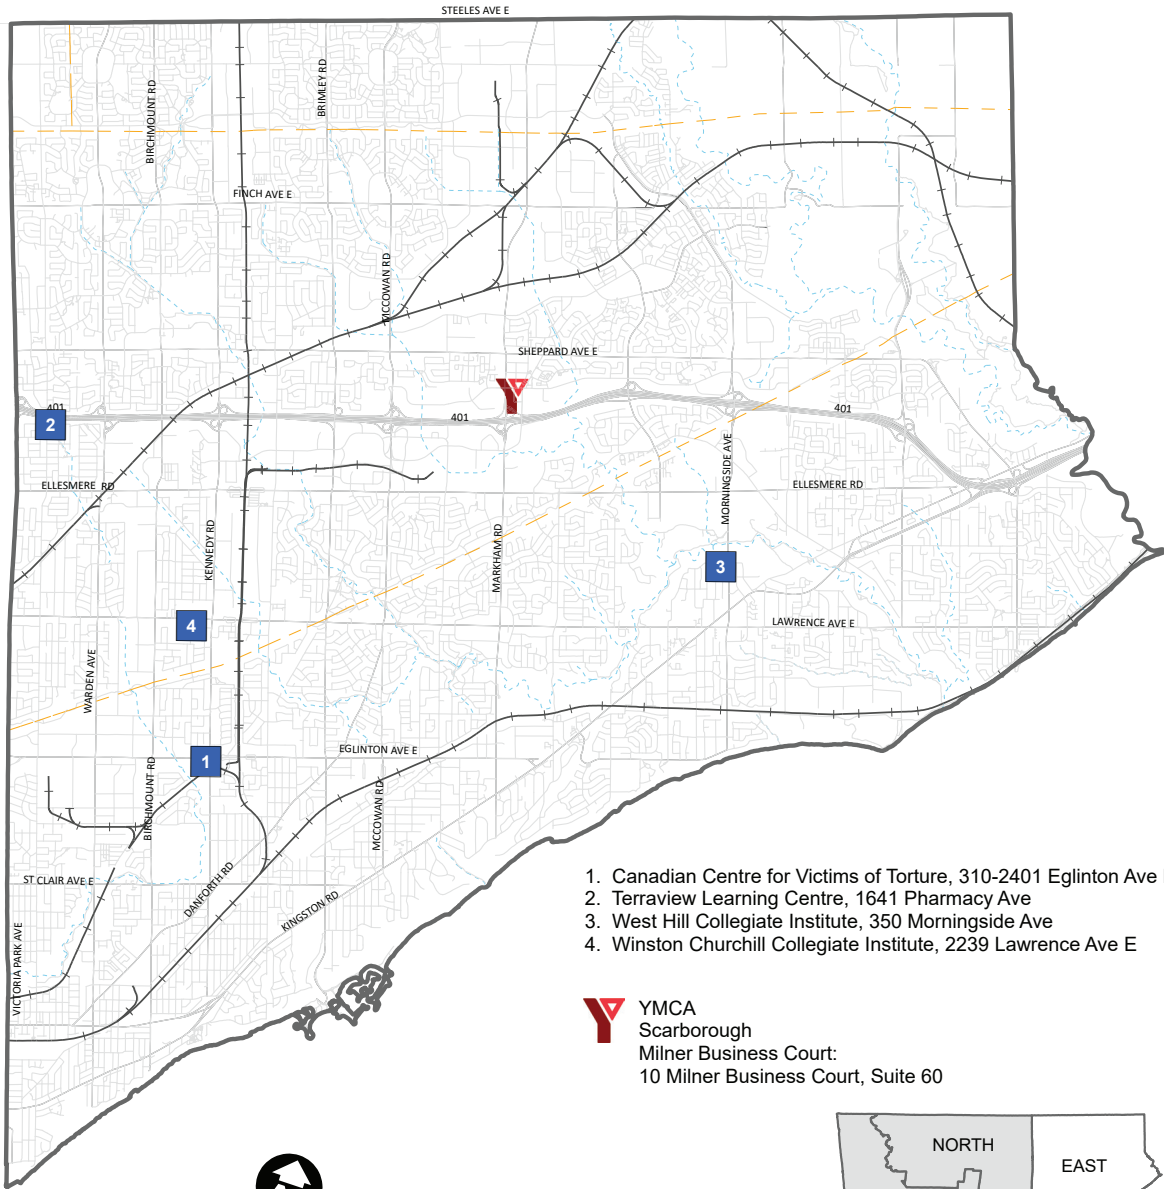

For survivors of torture, who are unable to attend regular ESL classes, please contact the **Canadian Centre for Victims of Torture** at 416 363-1066 between 9am and 5pm.

“

I started attending in February 2024. I chose TDSB because I heard a lot of good feedback from my friends and my goal is to improve my English level. I began to understand English much better.

“

I chose TDSB because it provides more learning facilities for people like us who are coming from a different world of living, with many differences. Speaking a language is one of the necessities for starting our new life. I want to have a Canadian certificate of education and start a new career. It has helped me in many ways, especially the materials that are provided in the class and the atmosphere of the class was very helpful for me. For a person who doesn't have many friends and doesn't know anyone, it's a great opportunity to meet new people with different cultures.
