Subject: **Launch of TDSB's New Literacy Strategy**

Dear Child Care and Before- and After-School Program Colleagues,

The TDSB is excited to launch our new [Literacy Strategy \(2024-2028\)](#). With the support of all education partners – including families – the Literacy Strategy will support the outcome that all students are able to create, communicate, read, write, and think critically to succeed in school and in life. Parents, caregivers, and guardians are encouraged to review the Literacy Strategy. As a next step, action plans will be created for each grade range to meet the goals in the strategy and [Multi-Year Strategic Plan](#).

In this Strategy, it is recognized that literacy learning starts well before children start kindergarten – through the many early years programs and opportunities we offer directly to children and families, and through our critical partnerships within the sector. This, as you know, is crucial to our collective work.

As valued partners in education, we invite you to explore this new [TDSB Literacy Strategy \(2024-2028\)](#) and encourage you to connect with your school in the coming months to learn more about their specific actions plans to support this work.

Sincerely,

The TDSB Child Care Services Team
