

Learning Opportunities Index (LOI)

What is our goal?

To determine the effectiveness of resources allocated using the Learning Opportunities Index (LOI).

How will we achieve it?

- Review the LOI policy and procedure to ensure the tool is effective at helping the Board meet its strategic directions particularly supporting students in an equitable manner and ensuring that socio-economic status is not a barrier to achievement and well-being (February 2019)
- Review the uses of the LOI in allocation of resources across the Board (May 2019)
- Determine how the allocation of resources using an LOI is impacting student achievement and well-being (November 2019)
- Explore alternative methods of allocating resources (if required), remaining committed to our principles of equity (November 2019)

How will we know we are successful?

- The achievement and well-being gap will decrease while expectations remain high for all students.
