TDSB FSL Programs

The TDSB offers 3 types of French programs

- Core French
- French Immersion
- Extended French

All 3 types of programs are second language programs and it is understood that they are designed for students and families who do not have French as a home language.

As such, there is no need for parents to know or understand French in order for their children to be able to participate in the programs: French Immersion, Extended French or Core French.

FSL Benefits

- **Research shows that second-language learning provides significant cognitive and academic benefits.**
 - It is shown to enhance first-language and overall literacy skills and to provide a foundation for the learning of additional languages (Jedwab, n.d).
- **There is evidence that learning another language can help in the development of interpersonal and social skills.**
 - According to the 2004-5 report of the commissioner of official languages, research shows that people “who master more than one language increase their self confidence and self esteem and are more at ease with others (Adams, 2005, p.7).
- **In our era of globalization, it is critical to heighten student’s awareness that bilingualism is an economic and cultural asset both within Canada and beyond.**
 - As the internet makes global communication ever more widely available and more businesses become internationalized, it is increasingly important for people to have language skills in more than one language (Genessee, 2008, p. 23).
